FOR IMMEDIATE RELEASE

Domin-8 Enterprise Solutions Acquires TCG Technologies

CINCINNATI, OHIO, March 1, 2007 – Domin-8 Enterprise Solutions, the leading provider of advanced software and services for the property management industry, today announced the acquisition of Vienna, Virginia-based TCG Technologies, LLC (TCGT). A specialist in property management and compliance software for the affordable housing market, TCGT supports over 5,000 installations serving more than half a million housing units nationwide.

TCGT's flagship application, i-CAM™, is an innovative Windows and Web-based application that automates and streamlines all aspects of rental office activities. TCGT also pioneered Tax Credit compliance management systems with the release of their industry leading ACCUCert™ product. To give large owner/operators the ability to have a single, consolidated management view into their entire portfolio of properties, TCGT's ExecConnect™ provides a groundbreaking executive dashboard with powerful reporting and analytical capabilities. Additionally, TCGT's i-DOC™ is the leading document management application for the housing industry.

"TCG Technologies' 20 years of leadership and innovation within the affordable housing market stand as a superb complement to the Domin-8 family," said Greg McGrath, President of Domin-8. "TCGT has successfully brought many innovative solutions to the market. Domin-8 is committed to leveraging their experience to expand and enhance our entire suite of solutions."

Domin-8 plans to continue to market, support and enhance the TCGT family of products, and plans to rapidly provide seamless integration with the growing suite of patent-pending Domin-8 Value-Added Services, including Background Screening, Electronic Payments and Renters Insurance solutions.

“We’re excited about what this acquisition means to our customers,” said Gustavo Sapiurka, CEO of TCG Technologies. “Our vision has always been to bring new and common sense innovations to help our customers manage and grow their complex businesses. Now, as part of the Domin-8 family, we will be able to offer our customers the benefits of the growing suite of seamlessly integrated, patent-pending Value-Added Services.”

About TCG Technologies

Founded in 1986, TCG Technologies, LLC (TCGT) is a leading provider of software and related services for property management and compliance monitoring for the conventional and affordable housing industry. TCG Technologies' mission is to provide first class software and service in an efficient, cost effective way. Headquartered in Northern Virginia, TCGT currently supports more than 5,000 installations nationwide representing over 500,000 households. For more information on TCGT, visit www.tcgtechnologies.com.
