Domin-8 Enterprise Solutions Acquires TCG Technologies Product Lines

March 1, 2007

Dear TCG Technologies Client;

First, let us thank you for being a loyal client of **TCG Technologies (TCGT)**. It has been our honor to provide you with the finest software tools in the real estate industry. We truly appreciate our client relationships and have some exciting news to share with you that can only improve and add value to these relationships.

Earlier this month, **Domin-8 Enterprise Solutions** acquired **i-CAM, ACCUCert, CAM II, i-DOC and licensed ExecConnect** from TCGT. We agreed to merge our products, services and staff into a single company which now provides the industry's most powerful combination of industry knowledge, property management software, and client services. Domin-8 plans to continue to market, support and enhance the TCGT family of products.

We are also proud to announce that the entire TCGT team, led by Mr. Gustavo Sapiurka, is coming onboard with Domin-8 and will lead our newly created Affordable Housing Division serving over one million units.

Domin-8 Enterprise Solutions is the leading provider of integrated software and services for the property management industry. Domin-8 offers a portfolio of advanced, award-winning solutions for all types and sizes of property management companies.

Domin-8 also delivers a full suite of tightly integrated, patent-pending **Value-Added Services** such as **Background Screening, Renters Insurance, and Electronic Payments**. These services help give owners and managers a single point of control for every aspect of property management, and the ability to enforce their business rules across their portfolio.

With the TCGT suite of products now part of the Domin-8 family, we now provide the leading solutions for a wide range of markets including LIHTC, HUD, PHA, RD and Market Rate. This merger will also make the suite of Domin-8 Value-Added Services available to all current TCGT customers.

What does this joining of forces mean to you? As an overview, here are some key points to consider:

- Your investment in i-CAM, ACCUCert, CAM II, i-DOC and ExecConnect is secure. Domin-8 plans to continue to provide support for the entire product line through TCGT's staff, and additional resources are now available as part of this merger.
- TCGT's existing development team based in Atlanta will continue the day-to-day development of all the product lines as they have done for the past 20 years.
- Your current **Upgrades and Technical Support Agreements** will remain in force, and we will continue our commitment to provide the highest quality customer service available. In fact, we plan to expand our support capabilities over the next few months. As always, should you require support, please contact our support team at the same number as before: **1-800-548-6656 extension 5**
- Domin-8 will continue to add value to TCGT customers by tightly integrating to the growing suite of patent-pending Domin-8 Value-Added Services.

Since it is our practice to communicate most information about product enhancements, new product offerings, as well as other helpful information via email, we do ask that you send an email with your contact information to **tcgt@domin-8.com**. This will allow us to confirm we have current contact information and insure that you receive critical information on a timely basis. We also ask that you forward this request for email addresses to others in your organization who should receive such communication from us.

You can also use the above email address should you have further questions or would like additional information. Or, to learn more about Domin-8 Enterprise Solutions, visit our web site at **www.domin-8.com**.

We welcome you to the Domin-8 family, the leading provider of award winning software applications to the property management industry. We believe this acquisition offers you, our valued customer, a unique combination of product solutions and market experiences. Our goal is to keep working hard to earn and keep your trust.

We look forward to continuing and expanding our relationship.

Sincerely,

Gustavo Sapiurka
CEO, TCG Technologies, LLC
