For Immediate Release

Domin-8 Announces Program to Support the NAHMA Educational Foundation

Demonstrating its commitment to the Affordable Housing industry, Domin-8 develops a program to donate a percentage of i-DOC™ proceeds back to the community.

Cincinnati – April 22, 2008 – Domin-8 has an Affordable Housing team with over 140 years of experience in the industry. This is a team that has been committed to giving back to the Affordable Housing community their entire career. That is why Domin-8 has chosen to continue displaying their support by committing to donate 2% of their i-DOC proceeds from purchases by NAHMA members to the NAHMA Educational Foundation.

“Our team is passionate about the Affordable Housing community,” says Gustavo Sapiurka, General Manager of the Affordable Housing Division at Domin-8. “They work hard to deliver leading compliance software applications and services to the market. For our team, this commitment is just an extension of that passion.”

In keeping with this commitment, Domin-8 is providing NAHMA with i-DOC at no cost to manage their Communities of Quality® program. i-DOC is the leading digital document and content management tool designed for the housing industry. It’s a great way to move towards a paperless organization and gain the added security of off-site document storage.

“We’re hoping this offer will translate into a substantial contribution that will assist the NAHMA Educational Foundation to further its commitment of promoting scholarships and drug-free activities for our affordable communities,” says Gustavo.

About Domin-8 Enterprise Solutions

Domin-8 Enterprise Solutions is the leading provider of integrated property management software solutions. At Domin-8, we believe that property management software is not “one size fits all.” The right software should be selected to fit you, your specific business and how you choose to run it. Our portfolio of advanced solutions is for all types and sizes of property management companies – residential and conventional, commercial, affordable housing, home owner associations, retail and private investors. Domin-8 also delivers a suite of Value Added Services, such as Background Screening, and offers a complete portfolio of training, implementation and support services. For more information, visit www.propertymanagementsoftware.com.
